PACKERS DENY ALL CHARGES CLAIM PLANTS ARE CLEAN

Neill-Reynolds Report Prompts Reply from Meat Barons

WILL ADOPT ANY PRACTICAL SUGGESTION

But State That Their Methods are Sanitary and Their Products are Wholesome—Eight Packing Com- panies Have Affixed Their Signatures to the Protest.

Chicago, June 5.—"If I find a brick out of place in the stock yards, I shall make the packers put it in place," declared Packing Commissioner Bartzen. "If there is violation of the laws in packing town, I shall try to have some one punished. They are chronic violators and give me more trouble than everybody else. The packers get rich on the public. Now they are poisoning the public. They ought to be indicted for manslaughter."

Chief Sanitary Inspector Hedrick sent sanitary inspectors to the yards to investigate the conditions alleged to exist.

Washington, June 5.—With the publication yesterday of the Neill-Reynolds report and the President's message thereon, responsibility for the correction of the appalling evils disclosed in the Chicago packing houses is passed up to Congress.

President Roosevelt believes Congress will enact an effective measure. He does not insist on the Beveridge amendment but he does insist that its provisions shall be adopted by the House Senate, as they came from the Senate. He does not yield one iota to the clamor raised by the beef magnates against certain portions of the amendment. Should the House committee on agriculture of which Representative Wadsworth, New York, is chairman, succeed in persuading the House to eliminate or tone down such features of the measures as he believes to be absolutely essential to protect the public health he will send another Neill-Reynolds report to Congress which may prove even more startling than the one submitted yesterday. The President has no desire to injure the business of the packers. Had they not attempted to prevent the passage of the Beveridge amendment to the agricultural appropriation bill in the House he would not have published any of the results of Commissioners Neill and Reynolds investigation.

The President has by no means played his whole hand. The two investigators have a great quantity of material bearing on other subjects than the lack of sanitation and cleanliness in the packing houses. This is in the form of statements and affidavits from other investigators as well as employees. The report published yesterday scarcely touched upon the alleged doctoring of diseased meats with chemicals and dyes. It simply stated that there was ample opportunity for such practices to be carried on by the packers without interference by government inspectors under the present laws and regulations. This subject is still under investigation. Wadsworth declined yesterday to discuss the message and report further than to say that the House would pass a law which would insure to the consumer meat fit to eat. It is opposed to the provision of the Beveridge amendment assessing the cost of inspection on the packers, and on this point is squarely at variance with the President. It is a feature of the amendment that the President insisted on, any tampering with which will probably call forth a second installment of the Neill-Reynolds report.

Chicago, June 5.—In reply to the charges made in the Neill-Reynolds report of their investigation of the packing plants and President Roosevelt's message to Congress, a joint statement has been issued by eight of the big packing establishments of Chicago.

In their statement the packers say that their plants are kept clean; their methods of manufacture are sanitary; their products wholesome and that for years doctors, chemists, sanitarians and official investigators from practically every civilized nation on earth who have made examinations of the manner in which the meat packing plants are conducted, have been entirely satisfied in every instance with the conditions existing in that indus-

try. Despite this fact, the packers assert that they stand ready to adopt any practical suggestion in the line of improvement. The packing companies who affixed their signatures to the statement are Armour & Company, Swift & Company, Nelson Morris & Company, G. H. Hammond company, Omaha Packing company, Anglo-American Provision company, Libbey, McNeill & Libbey and Schwarzschild, Sulzberger & Company. The packers say in part:

"Every pound of meat in our packing houses comes from animals which are inspected and passed by trained veterinary agents of the department of agriculture. This is the absolute fact. We are not interested in animals condemned before slaughter. We do not buy them. Every animal bought by us is inspected both before and after slaughter in accordance with the strictest regulations ever devised in any country, not even excepting Germany. Every animal or carcass that does not pass this rigid inspection is condemned and disposed of, under the personal supervision of the United States department of agriculture. The administration at Washington knows these facts. The writers of the Neill-Reynolds report know them. That these are the facts is reluctantly admitted in their report, but even this slight reassurance to the public is almost buried in the tail end of what they have written.

"It is to be regretted that Messrs. Neill and Reynolds did not get a practical light on their subject before writing a report in which it is apparently assumed that blood, grease and the every-day incidents of animal slaughtering are dirt. In contrast with their view we call attention to a report on packing house conditions by Professor T. J. Burrill, Ph. D., vice president and professor of bacteriology of the University of Illinois, and Professor H. S. Grindley, professor of chemistry at the same institution. The latter in their report asserted that the general conditions in connection with the meat packing industry are as good as could be expected under the circumstances.

"We have been believers in rigid animal and meat inspection since the inspection was first inaugurated. We have shown our belief in it by shouldering, for the benefit of the industry, an annual loss of approximately \$1,000,000—our loss on animals which are bought as healthy and condemned on inspection after slaughter. And now, in spite of persistent misrepresentations, we are heartily in favor of making this inspection more efficient, if that can be done, and of extending operation of the law to cover the sanitary conditions of packing houses.

The packers conclude: "In the light of what we are doing we have a right, we believe, to protest against hasty and empirical judgments that serve only to put weapons into the hands of foreign competitors of the American live stock and meat producing industry. This phase of the question can not be evaded. At the risk of being accused of trying to hide behind the farmer, we say that hasty, ill-digested, intemperate criticism of American packing houses strikes not at the packers, but at every farmer who raises a hog, sheep or steer for market. Without the foreign market created by the packing industry the American live stock growers' business would be absolutely stripped of profit."

PACKING INTERESTS PLAN DESTRUCTION

Of Roosevelt and All Who Acknowledge Alliance With Him for Recent Action.

Chicago, June 5.—Political destruction of President Roosevelt and all who acknowledge alliance with him in his fight on the packers is the plan of the millionaire proprietors of American live stock. (Continued on page 7, 2d col.)

PEERESS NEWLY APPOINTED AS LADY IN WAITING AND AFFIANCED BRIDE OF MR. AUSTIN CHAMBERLAIN.

Miss Ivy Muriel Dundas

London, June 5.—Mr. Austin Chamberlain's wedding is to take place on July 21, and Mr. Joseph Chamberlain's present to Miss Ivy Dundas, his future daughter-in-law, is a magnificent diamond tiara.

Mr. Austin Chamberlain's marriage is one of the purest love matches imaginable. It was all arranged in the course of the recent voyage he made to Africa for the good of his health. He went to sunny climes to try a cure for an attack of sciatica. He returned with a charming bride.

Mr. Austin Chamberlain is a man of much greater cleverness than is generally imagined. He has been badly handicapped in his road to recognition by having chance to be the son of his father, but the talent he displayed as Chancellor of the Exchequer and the retirement of his father from the government gave the public an opportunity of judging him on his own merits.

Miss Ivy Dundas is a very sweet girl, tall and fair, and it was while

The Countess of Shaftesbury and her children

stopping with Mrs. Bodd at Algiers that she and her fiancé met. Mr. Austin Chamberlain, like his father, has always been a very hard worker, and as such he has been thrown very

little into the society of women. It was a great pleasure to Mr. Joseph Chamberlain to hear of the engagement of his son, the most cordial relations existing between them.

Besides, the married life of Mr. Joseph Chamberlain has been particularly happy. He had long wished his son to be married and to have a similar experience.

THE DRAKE COMMITTEE CASE IN STATE SUPREME COURT

The Question Involved is as to the Right of a Legislative Committee to Gather Information and the Case is of National Interest Involving Important Legal Phases.

Columbus, June 5.—Wednesday of this week the Drake committee case is heard in the State Supreme Court. The question involved is of interest not only to Ohio, but to the nation. The State Senate appointed a committee to investigate the misgovernment of Cincinnati and Hamilton county. The Legislature made two appropriations to cover its expenses. The cashier of the First National bank of Cincinnati declined to appear in response to a subpoena of the committee and has been arrested on habeas corpus proceedings. Judge Sam Smith of Cincinnati held that the resolution appointing the committee was illegal.

Thereupon the state auditor declined to further honor the requisitions of the committee. The case to be heard in the court is the mandamus proceedings brought against the state auditor to compel him to honor the requisition of the committee. The only question before the court is the legality of the committee. Has the Legislature, or either branch thereof, a right to gather information through a committee to aid it in determining what legislation is needed? To intelligently legislate upon any subject the Legislature must know how the present laws are operating; it must ascertain existing defects and abuses before it can properly apply a remedy, it is argued.

The case does not involve any question of the power of the committee to compel a particular witness to appear or its right to investigate any given transaction. The sole question involved is whether the committee has the right to gather information at all. The case involves the very life and efficiency of the Legislature itself.

Is the Legislature of Ohio to be deprived of the right to gather information is asked? Must it legislate in the dark? Are the people to be deprived of the right to make such investigations as that made by the legislative insurance committee in New York state?

The beef trust decision at Chicago

and Judge Smith's decision in Cincinnati have made Ohio people unusually watchful of their courts. The action of the Supreme court of Ohio in this case will be followed with more than ordinary interest by not only the state, but the nation, it is argued at the capital here.

About 20 convicts of North Birmingham, Ala., made a dash for liberty. The guards opened fire and a majority of the prisoners halted. Six, however, got away.

Eight leaders of the Canaan (Mex) riots were executed by Col. Kosterlitzky. The rioters were lined up in front of a stone wall and killed by a volley from the rifles of the rurales.

CONGRESSIONAL CONVENTION

TO BE HELD AT NEW PHILADELPHIA, COMMENCING TOMORROW.

Hon. W. A. Ashbrook, Licking County's Choice, Will Have 65 Votes Behind Him.

Chillicothe, O., June 5.—There is just a probability of a protracted deadlock in the Democratic congressional convention for this (17th) district, to be held in New Philadelphia tomorrow. J. Edward Hurst will have the 64 votes of Tuscarawas county first and last; W. A. Ashbrook of Licking will have the 65 votes of his county just as solid, and E. S. Wertz of Wayne may depend upon the united support of his 53 delegates to the end of the fight.

The other two counties, Holmes and Coshocton, which have no candidates, will not hold the balance of power, and no nomination can be made as long as all of the three candidates retain the solid votes of their respective delegations.

The Congressional choice of Licking

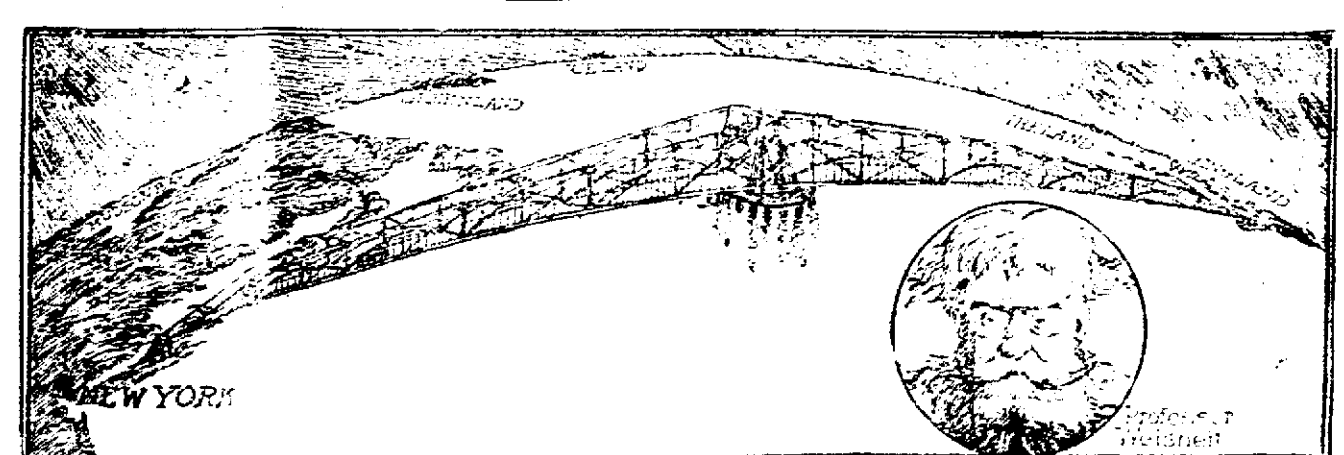

W. A. ASHBROOK.

made his choice when they cast their ballots.

By this process, which is genuinely Democratic, Hon. W. A. Ashbrook has been chosen by a decisive vote as the choice of Licking county at the Congressional convention.

Mr. Ashbrook will therefore be in evidence at the convention with 65 delegates behind him, and he will make an effort to secure the nomination that will be worthy of success.

TO CROSS OCEAN ON REVOLVING BRIDGE.

New York, June 5.—That all the nations of the world should be united in a single city, and all this without the aid of machinery, is the dream of a New York inventor, who has become famous by becoming the author of a new household word, the revolving bridge to the Atlantic.

It is a most strange notion, getting to be popular in Europe, and is being planned by Professor planned by a revolution in the middle of the Atlantic.

TROOPS ARRIVE ALL IS QUIET

General Speaks is in Command of About 1200 Militiamen

CO. G LEFT MONDAY EVENING

JOINING OTHER COMPANIES OF REGIMENT COMING FROM COLUMBUS

Citizens Protest That Troops are Not Needed in the Jefferson County Mine Troubles.

Dillonvale, June 5.—The arrival of twelve hundred militiamen this morning vividly recalled the disorder during the prolonged strike of eight years ago. The state soldiers, have twenty rounds of ammunition each, the non-commissioned officers have forty. The miners viewed the troops but created no disorder. Sheriff Vorhees is at Bradley and has assumed full command of the situation. Quietness prevails throughout the district, and the union officials do not anticipate any further trouble. They are awaiting the outcome of the conference between the operators and miners at Columbus.

The troops will be kept at the mines at Bradley, Crowded Hollow and Plum Run, but if no agreement or settlement is reached they will be distributed to the mines at Dillonvale, Conner, Long Run and Glen's Run.

Under the surface there is an ugly feeling and threats are made to destroy the company's property. The union officers and citizens are protesting that troops are not needed. An early recall is looked for. There are nine companies on the ground, two of the Eighth regiment and seven of the Fourth, with General Speaks and Col. Weybrecht in command. The Signal and Hospital corps are with the troops, who will make the affair an encampment. The miners are restless, as they understand they are to be evicted. The strikers from other towns marched to Bradley for a monster meeting today.

Columbus, June 5.—Adjutant General Hughes this morning received word from General Speaks in command of the Ohio troops, that the mobilization was satisfactory and everything is quiet.

SETTLEMENT NOT PROBABLE.

Columbus, June 5.—The joint state committee reconvened this morning. The miners are contending for the 1903 scale, the operators for the 1904-5 scale. The fact that arbitration was declined by President Mitchell, indicates little hope for this method. The miners are formulating a counter proposition and will submit it late this afternoon to the operators. The situation is not regarded as hopeful of an early settlement.

Steubenville, O., June 5.—Two regiments of the State militia are now on guard in the Jefferson county coal fields, the troops arriving there at an early hour today. Dillonvale, Plum Run and Bradley are the strike centers.

At Dillonvale the coal strikers are in a most turbulent mood. It is reported that they and their sympathizers made large purchases of rifles, revolvers and ammunition, and finding an insufficient quantity in Dillonvale, extended their purchases to Steubenville and Wheeling.

Every attempt is being made by the leaders of the mine workers to hold the men in check, but the failure to pay strike benefits, coupled with their straightforward circumstances and the outbreak of Monday morning, have had the effect of inciting the foreign element to desperate measures.

The militia force now at the mine region is a very strong one. Two regiments are on duty, the Fourth and Eighth. Each infantry company received four rounds of ammunition on its arrival at Bradley. In addition 1000 rounds were ordered sent to General Speaks from Kings Mills, near Xenia, where it is manufactured. The most effective riot guns ever made are the Colt machine guns with which Company I of the Fourth formerly Battery H, is equipped. This company, which is commanded by Capt. (Continued on Page 6, 4th Col.)

The Life Of the Teeth

Teeth stay sound as long as germs are kept from eating into and destroying the enamel. Dental authorities now agree that decay of the teeth is caused solely by the germs that live and multiply in the particles of food which collect about the teeth.

Married Women

Every woman covets a shapely, pretty figure, and many of them deplore the loss of their girlish forms after marriage. The bearing of children is often destructive to the mother's shapeliness. All of this can be avoided, however, by the use of **Mother's Friend** before baby comes, as this great liniment always prepares the body for the strain upon it, and preserves the symmetry of her form. **Mother's Friend** overcomes all the danger of child-birth, and carries the expectant mother safely through this critical period without pain. It is woman's greatest blessing. Thousands gratefully tell of the benefit and relief derived from the use of this wonderful remedy. Sold by all druggists at \$1.00 per bottle. Our little book, telling all about this liniment, will be sent free.

"KEEP IT OUT."

"Keep it out of the paper," is the cry which the local newspaper publisher daily hears. To oblige often costs considerably, though the party thinks the granting scarcely worth saying "thank you" for. A newspaper is a peculiar thing in the public's eye. The news gatherer is stormed at because he gets hold of one item and is abused because he does not get another. Young men, and often young women, as well as older persons perform acts which become legitimate rights for publication, and then they rush to the newspaper office and beg the editor not to notice their escapades. The next day they condemn the same paper for not having published another party doing the same thing they were guilty of, forgetting apparently their late visit to the printing office.

The terrible exposures of the packing houses is a vindication of General Miles, who protested so strongly against the kind of meat that was being fed to the United States soldiers. The strong protests of the general were not even encouraged or approved by Theodore Roosevelt, who has now awakened at the eleventh hour to the shocking exposures of conditions at the packing houses.

Another man steps forward with the prediction of the end of the world, fixing the year 1929 as the one in which the disaster is to befall this ball. Well, that gives time for six presidential elections, and in the excitement incident to that number of campaigns the prediction and the man making it are sure to be forgotten.

King Alfonso's bride adopted the name Queen Victoria. That's a name illustrious in history, and if the new queen but approaches to the record of the queen whose memory all Britain delights to honor, Spain will be fortunate.

Roosevelt as an Issue.

(Columbus Citizen.)

Roosevelt is to be the issue before the delegates to this year's Republican state convention. Everything is shaping that way. The battle lines are being secretly laid.

The impression is out that because the state ticket is short this year little importance will attach to the state convention. On the contrary, it may be one of the chief history-makers in the annals of Ohio politics.

Shall the Republicans of Ohio follow Roosevelt or United States Senators Foraker and Dick? That will be the plain question before the convention.

Foraker and Dick have combined to prevent Ohio endorsing Roosevelt's policy. The President's followers have taken up the gauntlet and shall insist that the President be approved in all things and in plain language.

It is a big stake. If Foraker and Dick shall win before the convention and the people shall ratify at the polls their permanency in politics then new faces are likely to appear

The Influence Of What We Eat

Young People Are Especially Susceptible To This Influence.

The nourishment taken by body and mind, the extent to which this nourishment is assimilated, the form and proportions in which it is taken into the system, the amount of food and drink consumed, and the care given to the whole system, are all factors which profoundly affect the health. Some individuals think they can absorb the laws of nature with impunity, but even the most robust of physical vigor eventually succumb, while the great mass of people, especially the young, are particularly susceptible to the food they consume. As "Good Housekeeping" in an editorial suggests, health depends not so much on the nourishment taken into the stomach as on the extent to which this nourishment is taken up by the system. Malt, the perfect malted whole wheat food, so rich in nourishment, containing every food element necessary to the sustenance of the human body and mind, as readily assimilated, even by the weakest stomach, because of the large percentage of maltose, or malt sugar, which it contains, and is so good to eat! Now for sale by all grocers, 10 cents.

from Ohio when Foraker's and Dick's terms in the senate shall expire. Dick, as has been his custom for several years, will bring a ready-made platform to Ohio with him. Of course it will endorse the President, but not enough to suit his supporters, it is believed.

Roosevelt's followers will insist upon few words and so plain and positive that there can be no question about where Ohio stands on the things for which Roosevelt stands.

What occurred at the home of then Governor Myron T. Herrick just before the last Ohio Republican convention may furnish models for the two platforms. Governor Herrick, Secretary of War Taft, Senator Dick, Attorney General Ellis, Oil Inspector Malloy and perhaps a few others met to deliberate on what should go into the platform. Dick drew forth from his pocket a ready-written one.

After he had read 11 pages of type-written matter on national issues and the glory of the Republican party, Ellis moved to substitute the one sentence: "The Republicans of Ohio stand for everything that President Roosevelt stands for."

"Bully," blurted out "Big Bill" Taft. But there was no echo to this blunt expression and finally the wordy straddle written by Dick that read for an endorsement of Roosevelt or not an endorsement, just as one wanted to take it, prevailed. That ambiguous platform furnished the opportunity for Foraker, in his Bellefontaine speech, to take issue with the President on rate regulation; Foraker's speech in turn called forth the famous speech of Taft at Akron and the two are now conceded to have played a disastrous part for the Republicans in last fall's election.

It is claimed that the Republican congressional candidates in Ohio will be almost a unit for a strong endorsement of Roosevelt, fearing that anything else would ruin their own chances before the people of the district. Should this prove true Foraker and Dick will find rough sledding.

DEMOCRATIC CIRCUIT JUDICIAL CONVENTION.

Delegates from the several counties included in the Fifth Judicial Circuit of the State of Ohio, will meet at Newark, Ohio, on

TUESDAY, JUNE 13, A. P. 1906, at 1:00 p. m. for the purpose of placing in nomination a candidate for the office of Circuit Judge for said Fifth Judicial district.

FOR CHINA.

House Passes Bill Creating United States Court.

Washington, June 3. — The house under suspension of the rules passed a bill creating a United States district court for China and prescribing the jurisdiction thereof. The laws of China differ in spirit and execution so radically from the laws of the west that the nations of the world have found it inadvisable to permit their citizens resident in that country to be subject to Chinese jurisdiction. The doctrine of extra territoriality, which is almost as old as international intercourse, was extended by treaty to China in common with Turkey, Persia, Siam and other oriental states. According to the report made on the bill since 1860 the judicial function has been exercised by consuls with varying success.

Another Quake.

San Francisco, Cal. June 5.—An earthquake shock was felt here and in Oakland at 11:50 Monday night, it was of short duration. No damage has been reported.

THE STEAMSHIP TABLE D'HOTE IS DOOMED.

August Keller.

New York, June 5.—Best known of "sea restaurateurs"—the class itself is not yet a twelvemonth old—is August Keller, manager of the Ritz-Carlton restaurant on the new Kaiserin Augusta Victoria. Just before the Kaiserin sailed for Hamburg Keller was led to tell what the work of a sea restaurateur is like.

"The meals served at sea are for the most part of a very light character, taste generally running to diets of chicken. Most travellers when on the ocean do not take to the idea of sitting down before a great saddle of mutton, for instance. They like a nice little meal of four or five courses, with things served in little silver dishes by a waiter who wears a white shirt and clean cuffs. My assistant and I walk on deck during the afternoon with the wine card and the carte or menu, and take orders for dinner, so that at the time he has a passenger will find his dinner, cooked especially for him and ready in the restaurant.

enger service within the next five years I shall give up the ghost. The ordinary sea table d'hote on first class ships is doomed. I have spent many hours studying the question of the best method of feeding a ship's company, and my idea is that one whole deck should be given up to restaurant purposes. Good valets and chambermaids should take the place of stewards. The whole of the living arrangement should be in charge of a capable hotel manager."

GRANVILLE NEWS

Granville, June 5.—A special meeting of the school board was held with all members present, with President Hiram LaFerre in the chair. Superintendent L. W. McKinnen was selected to present the diplomas to the seniors at the commencement on Thursday night. The schools were readjusted as follows: The first and A grade will be in the B primary, the third and fourth in A primary, the fifth and sixth in the intermediate department, the seventh in B grammar and the eighth in A grammar. The seventh grade will go into the A grammar and the A grammar will be promoted to the High school. A special meeting will be held soon to complete the election of teachers.

The members of the A class of grammar of the High school completed their course on Tuesday and a short literary program was rendered after which they were presented with certificates certifying that they had completed the elementary course.

HAIR TELLS CHARACTER.

Color of Hair Said to Indicate a Person's Temperament.

Many people believe that blonde, or light hair denotes affection and dandy hair constancy. A person without hair is not devoid of character; far from it. The disposition of the average bald-headed man is to show such solicitude for the welfare of others, that he neglects himself. A germ causes baldness. Prof. Sabouraud, of Paris, France, introduced a rabbit with Dandruff germ causing it to become totally bald in five weeks' time. To rid the scalp of these dangerous germs it is necessary to apply Newb's Hericide.

"Destroy the cause—you remove the effect." Sold by leading druggists. Send for information for sample to The Hericide Co., Detroit, Mich.

C. T. Bricker, Special Agent.

Street cars in Zanzibar are to be drawn by domesticated zebras according to the Railway and Engineering Review. Lord Howard de Walden, proprietor of a 40,000 acre zebra farm in Uganda, Africa, has received an order for 40 of the animals for that purpose.

Long Tennessee Fight.

For twenty years W. L. Ranks, of Bolts, Tenn., fought a nasal campaign. He writes: "The swelling and soreness inside my nose was fearful, till I began applying Bucklen's Eye Salve to the sore surface, this caused the soreness and swelling to disappear, and I am now cured." Best salve in existence. 25c at F. D. Hall's drugstore.

DRAKE HEARING AT CINCINNATI

ACTIVE STEPS TAKEN BY COX AND HYNICKA TO QUASH INVESTIGATION.

Postoffice Robbery—Powder Plant Blow Up—Chart. of Embezzlement—News of Ohio.

Cincinnati, O., June 5.—George B. Cox and Rud K. Hynicka are believed to have taken the first aggressive step to quash the continuance of the Drake investigation. Frank Dinsmore, personal attorney of Cox, and Miller Outcalt, who bears the same relation to Hynicka, made application to file briefs for the defense in the case brought by the Drake committee against Auditor Guilbert to force the payment of vouchers for the expenses of the committee. The matter will be heard Wednesday. Judge Schroder and Former City Solicitor J. M. Butler, of Columbus, will appear for the committee. A decision is expected this month.

Over a Cow.

Gallipolis, O., June 5.—Roy Johnson and Harrison Slater, both prominent farmers of Swan Creek, this county, engaged in an altercation over a cow, when Slater assaulted Johnson with a hatchet, breaking his finger. Johnson shot Slater twice in the groin with a revolver, and the latter is dangerously wounded.

Hanged Himself.

Ravenna, O., June 5.—The dead body of Bert Doolittle, widower, 40, was found by his employer, Mr. Guyette, in the barn of the latter in Aurora, suspended from a rope. He had been recently discharged from a hospital for the insane, and leaves a son five years old. He formerly lived in Chargin Falls.

Postoffice Robbed.

Findlay, O., June 5.—Unknown parties broke into the general store of the Stanley brush works of Van Buren and stole 15 knives and broke open the safe, wrecking it. The postoffice, which is in the same room, was also robbed, the burglars getting 50 cents in money and 50 cents in stamps.

Embezzlement Charged.

Niles, O., June 5.—Magistrate Thos. Winfield was brought into court today to answer to a charge of embezzlement. George Kuntz, the complainant, alleges that he was given a verdict in a case tried in Winfield's court, Oct. 3, 1903, and that he has never received the money on the judgment.

Powder Plant Blew Up.

Youngstown, O., June 5.—The works of the Burton Powder Company at Quaker Falls, one mile east of Lowellville, blew up. No one was killed, but the glazing mill was completely demolished. Four hundred kegs of powder of fifty pounds each let go. The damage is about \$6,000.

Slap at Standard.

Cleveland, O., June 5.—Congressman Burton will be asked to father a bill preventing trusts and other organizations selling below cost. The bill is a blow at the Standard by independent oil men.

Two Drown.

Winchester, O., June 5.—Ishmael Owens, 25, and his stepbrother, Evan Insko, 19, were drowned while seining in Brush creek.

Open Grate.

Gallipolis, O., June 5.—Miss Belle Massie, 15, is dead from burns received by her dress catching fire at an open grate.

Potters Return to Work.

Crockville, June 5.—At a meeting of the potters' union Saturday evening it was decided to return to work on Monday morning at the Acme pottery after a strike lasting several days. Trouble arose when the superintendent refused to allow Michael Cain to work as "batter out" and the potters walked out in a body. However, another man was hired to fill Cain's place and the potters decided to return to work yesterday. No further trouble was anticipated by the pottery company.

Inspecting Roads.

Coshocton, O., June 5.—Inspector Pace of the postoffice department, started out again Monday morning on tour of inspection over the county for the establishment of complete rural free delivery in this county. "It is going to be hard work," he said before taking the train up the Watkoning Valley. "Because bad roads will cut a great deal of figure. There are so many side roads in this county that cars almost impassable, even in good weather that the department will not ask any carrier to try and carry mail over them. Bad roads are going to cut many parts of Coshocton county out of free delivery."

Against Anti-Pass Feature.

Washington, June 5.—A campaign has already begun to defeat anti-pass amendment to the railroad rate bill insofar as it applies to railway trainmen and their families. Many telegrams have been received by members of the house signed by officers of organizations of railway employees reading: "Please use all means within your power to stop passage of bill prohibiting the issue of passes to railroad employees and their families."

GIRL ELOPED TO CINCINNATI

WHERE SHE WAS MARRIED AGAINST THE WILL OF HER PARENTS.

She Writes to Her Father in Zanesville Asking Him to Receive Her Young Husband.

Zanesville, June 5.—Last Saturday by agreement Miss Dolly Ruth Handshy of the East Pike and Prof. W. S. Brock of Bridgeville, met in this city and together proceeded to Cincinnati where they were united in marriage on Sunday evening with the aid of a Baptist minister, who read the marriage service.

Miss Handshy is the 16 year old daughter of Mr. and Mrs. George Handshy, and is a winsome "lassie." Mr. Brock is a school teacher by profession and has just closed the year's work at Bridgeville, O. He is a man of more than 30 years of age. Two years ago he taught school in the Handshy neighborhood and little Dolly was one of his pupils. He became interested in her at once and from that date until this his attentions to her have not ceased. Strenuous opposition was made to this by the young woman's parents, who objected vigorously on account of the extreme youth of the girl. Their objections, however, did not avail.

On Saturday Mr. and Mrs. Handshy left home for the day and on their return in the evening discovered their daughter's absence. Inquiry revealed the fact that she had come to the city, where she was joined by her fiancé, and together they had departed for Cincinnati.

On Monday morning the father received a communication from the daughter stating tersely that she was happily married and that if they would forgive her she would return with Mr. Brock; otherwise, it would be her pleasure to remain with her husband. Mr. Handshy has not replied to the letter yet, but it goes without saying that the proverbial blessing will be the lot of Mr. and Mrs. Brock and that they will live happy ever after.

STRUCK BY TRAIN SERIOUSLY HURT

G. A. SMITH OF PEORIA, ILL. WAS THE VICTIM OF SERIOUS ACCIDENT.

He Refused the Aid of an Ambulance and Walked to the Newark Sanitarium.

G. A. Smith, whose home is in Peoria, Ill., was struck by an eastbound Pan Handle train at the Williams street crossing Monday afternoon at 4:10. While not of a necessarily fatal nature, the injuries of Mr. Smith are very serious, he having received two frightful cuts on the head in which a number of stitches were taken.

The victim of the accident was in the act of crossing the unguarded Williams street crossing directly after the passing of the westbound train, and not noticing the approach of the train from the other direction, was struck and thrown several feet in the air. With little assistance Mr. Smith arose to his feet, and refusing the offer of McGonagle's ambulance, walked to the Newark Sanitarium, where his injuries were attended to.

Tuesday Mr. Smith was reported to be resting comfortably and showing signs of rapid recovery.

TEACHERS ELECTED AT BOARD MEETING

There Will be Two Additional Teachers Employed in the High School—Business Transacted.

The Board of Education, at its regular meeting, held Monday night, transacted quite an amount of business. In the absence of President Beggs, William Christian was elected president pro tem. Superintendent J. D. Simkins presented the board with an estimate of the number of pupils to attend the High school next year, which emphasized the need of two additional teachers. Consequently the board selected Mr. Clarence Wine-land of Westerville, as assistant instructor in science, and Miss Ruby Jones, who for the past year has been employed in the Mansfield schools, the latter at a salary of \$650.

Mr. Wine-land has had about six years of teaching experience, and graduates from Otterbein this month. He will be hired at a salary of \$800.

As extra teachers in the elementary grades, Miss Eva Rockwood of Greenview, Miss Ethel Brillhart of this city, and Miss Etta Crilly, daughter of ex-Mayor A. J. Crilly, who has been teaching in Lorain for some time past were elected. All of the above are graduates of Denison university.

The newly elected teachers for the elementary grades will be salaried according to the recently adopted schedule.

Clerk D. M. Keller was authorized to rent the house on the Lowhead property west of the High school on West Main street, recently purchased by the board. The house will be vacated by July 1.

An appropriation of \$130 to Prof. Painter, supervisor of manual training, was voted by the board, for the purpose of reimbursing him for machinery and tools to be used in the department, and which were purchased by him.

A number of applications for positions as teachers in the schools were received and read.

The usual bills were presented and allowed and the monthly report of the truant officer heard.

After referring the matter of repairs on buildings to the committee on buildings, with the power to act, the board adjourned.

Three Hit by Lightning.

Laurens, S. C., June 5.—N. Y. Manley, aged 65, and his ten-year-old grand son, Joe Manley, were instantly killed, and Henry Manley, the little boy's father, fatally injured by the same stroke of lightning at Poplar Springs church.

To Abolish Death Penalty.

St. Petersburg, June 5.—The lower branch of parliament will suspend consideration of the actarian problem in favor of the bill to abolish the death penalty, which as an urgent measure takes precedence. The bill consists of only two paragraphs, the first of which abolishes the death penalty in all cases, while the second provides the next lower penalty for offenses hitherto punishable with death. The bill is mainly applicable to conditions of reinforced security and martial law, the only crime punishable with death under the ordinary civil code being attempts against the person of the emperor and breaking the quarantine against the pest.

Sanator Beverage Bill.

Washington, June 5.—Senator Beveridge of Indiana is suffering from an indisposition brought on by stomach trouble. He did not go to the Capitol and may take several days' rest. He expects to fully recover but will work as ever and offers to call the conference report on the statehood bill.

"Reasons Why"—Dyspepsia

Self-poisoning is the most common form of disease. Not with drug poisons, but with the poison made inside the body—uric acid. Every good physician now knows that uric acid causes Dyspepsia, all stomach troubles and nine-tenths of all diseases. So, avoiding disease or curing disease plainly depends on driving out the uric acid.

HOW URIC ACID CAUSES DISEASE

Improper food causes what your physician calls congestion.

He means that the tiny blood vessels in your stomach are affected and the blood is unable to pass through them.

So at once the little grains of uric acid in your blood become lodged and work their way into the tissues of the stomach.

The irritation and congestion that follows is named dyspepsia, indigestion, ulcer of the stomach, etc. The cause is always uric acid.

This is the "Reason Why" of all stomach trouble. The cure is the removal of the uric acid. The proof is the thousands who have been cured.

LIFE PLANT DRIVES OUT URIC ACID

LIFE PLANT is a preparation of seven herbs, scientifically prepared to dissolve uric acid—and it does it.

In whatever part of your body the uric acid is deposited, whether in the stomach, or kidneys, or liver, LIFE PLANT dissolves it out.

LIFE PLANT purifies the blood—heals the stomach—helps it to digest food and drives all poison out of the system.

LIFE PLANT is not a patent medicine and contains no harmful drugs. It is a specific for all diseases of the stomach—a natural, harmless solvent for uric acid.

URIC ACID SYMPTOMS

Sour stomach, belching, pain in the stomach, and poor digestion. These are the forerunners of serious stomach trouble. Headache, biliousness, backache, and menstrual disorders—all show uric acid to be at work.

R If you have any stomach trouble, cure yourself by driving out the cause of disease. Take LIFE PLANT. It is the common sense remedy—a natural tonic and solvent of uric acid.

TESTIMONY COMPLETED IN WATER WORKS CASE

And the Arguments Submitted to the Court in Writing
---Assistant Attorney General Asked Till Wednesday to File His Brief.

The water works injunction case, the testimony in which was concluded Monday, will probably not be decided before the latter part of the week. The arguments of both sides were presented to Judge Seward at the conclusion of the testimony Monday afternoon about 3:30, but Attorney Miller of the State Attorney General's office stated to the court that he desired to prepare and present a brief upon the case, and the law, insofar as the State Board of Health was concerned in it.

During the progress of the case Monday the fact was brought out that William Shields Sr., and this fact was brought out in that gentleman's testimony, was indemnified in bringing the action against the company by certain members of the present board of public service. Mr. Shields stated that Attorney J. Howard Jones gave him a certificate of indemnity for the costs in this action and that the certificate was signed by two members of the B. P. S. and others.

In the testimony of W. C. Christian, who was placed on the stand Monday after the noon hour he stated that there were no arrangements in the present plans for a filtration system. Further regarding the modifications in the plans, that none had been made by the authority of the B. P. S., and that in the construction of the foundations, approximately double the amount called for was paid for the concrete, and that the concrete contained larger stones, in the gravel, than specified in the contract.

Mr. Christian stated that the piping and tile was examined by W. P. Mason, the consulting engineer, and that large numbers of the pipes were found to be imperfect and a number cracked, also that the tile was a scant two inches in thickness where the contract provided for two and a half inch tile.

(Mr. Christian explained to the Advocate today that the only interest the Newark B. P. S. had in the injunction case was at the instance of the State Board of Health so that the question at issue in the injunction could be settled. The State Board of Health notified the Newark B. P. S. that unless it complied with the demand for a filtration plant in the first portion of the water works construction that another suit would be brought by the Attorney General.

The indemnity furnished Mr. Shields Sr., was a WEEK AFTER the injunction had been granted. The B. P. S. had no interest in the bringing of the injunction in the first place. But on advice from both the State Board of Health and the Attorney General's office it was deemed best to have the legal questions involved settled in the injunction case that had been brought in which Mr. Shields Jr., was plaintiff.)

John P. Lamb was called to the witness stand. He was questioned closely regarding the selection of engines for the new plant. He stated that the engines were selected on October 4, the same day that the contract was signed. It was later discovered that larger engines would be required and the power house was enlarged to accommodate the larger engines. Mr. Lamb stated that the enlarging of the building cost the board no more because the engineer took off some of the more expensive finishing on the inside when the change was made, so that the cost was practically the same as before.

With reference to the tile to be used in the intake line Mr. Lamb stated that the board knew that the contract provided for two and a half inch tile, but that they also knew that it could not be obtained in this part of the country very easily. Here the witness was asked if the contract did not provide that the company furnish the tile anyway. He answered that it did.

The witness was further questioned regarding the filtration system required by the State Board of Health. He answered that the city's contract did not provide for a filtration plant although the board of health ordered that it should, but that the plans which were adopted did consider a filtration plant but that there was not enough money to build it.

When asked if he did not know that the Board of Public Service was violating the order of the State Board of Health by not intending to build a filtration system, Mr. Lamb replied that he had known the State Board not to require it. The question was repeated, and the same answer given.

At this point the defense introduced the minutes of the B. P. S. which contained the result of the tabulation of the bids for construction.

William Shields Sr., was recalled and a request made for the original deed of the property at the corner of West Main and Eleventh streets. Mr. Shields stated that the deed could not

be found. However, in that connection, he stated that his son took sick and he took charge of the property for his son, paying the taxes and collecting the rents from that time on, and that he had never had it transferred back to his son.

In the effort to show whether or not William Shields Jr. was a taxpayer and capable of bringing this action in good faith, the attorneys got down to fine points in considering whether, at the time the property was deeded to his father, he was in his right mind, or whether as a result of his illness he was not capable of realizing what he was doing.

William Linke took the stand for a short time and testified that a number of linings, including certain changes in the marble work at the plant, were made by various members of the board without being acted on officially or placed on the records.

The plaintiff's witnesses were called and the first to be examined was the consulting engineer, W. P. Mason. He stated that he had examined the pipes in the street and that possibly fifty of the sixteen inch pipes were defective, some being cracked and others having pieces broken out of the ends. He said in answer to a question, that the two and a half inch tiling could be secured, but that it was a special grade and cost more than the two inch pipe. Mr. Mason was asked if he had any objection to accompanying Mr. Ulen, president of the American Light and Water Company, and pointing out to him the defective pipe. He said he would be glad to do so.

Dr. C. O. Probst of the State Board of Health was the next witness. He told of the approval of the board of health upon the very first plans submitted, and later of the request for approval of a change in the intake system. This was granted. He stated that their approval however, was all on the grounds that there was to be a filter system in connection with the plant.

Assistant County Treasurer C. L. V. Holtz was called to the stand following Mr. Probst. He identified the tax receipts on the Shields property and stated that William Shields Sr., paid the tax.

The last witness called was Mr. Ulen who was placed upon the stand to testify in rebuttal. He was examined only regarding the test of the pipe required by the contract and which the company was prepared to give. He stated that before the pipe was covered in the trenches it was to be subjected to a hydraulic pressure of whatever the regular pressure would be apt to be, (possibly 150 pounds) for every 2000 feet of pipe.

After the testimony of Mr. Ulen, the arguments of the attorneys were agreed upon as to the method of submitting them to the court when it was decided that they be presented in writing.

**GORMAN'S FUNERAL
ON THURSDAY**

Washington, June 5.—The funeral of Senator Arthur Pue Gorman, who died Monday of heart disease after many months' illness, will be held Thursday morning at the senator's late residence in this city. Senator Gorman long was a notable figure in congress. He first took his seat in 1857 and served continuously 18 years. Nearly all that time he was the leader of his party in the senate. He managed the campaign that resulted in the election of Cleveland in 1884. The most notable contest of his congressional career and one which attracted to him wide attention was when he led the senate minority in 1890-91 and defeated the federal elections bill. When the Democrats had control of the senate, Gorman was the recognized leader of that body. It was during Cleveland's last administration that a break occurred between Cleveland and Gorman. To this opposition the defeat of Senator Gorman a few years later is attributed, although his party lost Maryland in 1896. As soon as the Democrats regained control of the state, he was re-elected to the senate.
